

To Whom it may concern:As an XM subscriber, I can not tell you how much I enjoy the variety and quality that XM provides. I also appreciate the clarity I get with XM. I live in a small town in the Ozark mountains and often times do not get good reception on regular Fm radio. I would respctfully urge you to reject NAB's petition 04-160 and support XM's ability to provide the kind of programming I enjoy and deserve.

Thank you for your attention to this matter.

Kara Miller
